A LETTER.

Interesting Communication From E. H. D. Webb, of Wenatchee, Wash.

Satisfied but faintly expresses my appreciation of this wonderful country, as the great prospects for this town and valley alone are enough to make people of push and energy want to make Wenatchee their home.

I consider when I made a sacrifice of my nice home and pleasant surroundings at Webville, Ky., that I was a lucky man, although at that time I never expected it to be Washington. But I trusted in one of the Psalms written by David, and caused me to know the way wherein I should walk, and so my lot was cast here. Of course I have not been as fortunate as some men that came here earlier, but in the meantime I have not let any grass grow under my feet and today I am worth four thousand dollars more than the day I landed in Washington, and this was made without capital to start with.

Real estate in this valley is worth double what it was two years ago, and actually pays a big interest on money invested. If I had either big or little money to invest I would certainly put it in real estate in this valley.

The possibilities here for a great city are only a few years ahead. As we have what it takes to support a city—an abundance of never-failing fruit and plenty of water and wealthy people. We have a delightful climate neither extreme heat or cold, I believe more sunshine than you will find anywhere and such a thing as storms are not known here. You scarcely ever hear it thunder and hardly ever rains. The people irrigate their lands and can always know their crops are sure and best of all no mud and the best place on earth for automobiles. So many here they would remind you of being in a large city.

I note what your Webville correspondent says in regard to the work visiting my old home. I am sorry that I cannot shake hands with each of the happy fathers, as my congratulations are with them and must say when we left our happy home at Webville. Though innocent of the charge by mistake, this profile bird was left in Dr. Thompson's care and I suppose turned loose for the benefit of politics.

No doubt you have heard where dollars grow on trees. Now, this is the nearest of all places, as one man realized over \$60 on one apple tree and one orchard of 29 acres brought the owner \$28,000. So you can quickly see why I like the West—it's the golden opportunities that are here.

I wish that I could get a few of my friends that want to invest some money and locate them in Wenatchee valley, as I believe God intended mankind to help each other why not tell our friends of a good country when we know it.

The only thing I regret is that I did not come to this country five years ago. The patch that I thought of buying then for \$1000 sold two years ago for \$20,000 and today is worth a great deal more.

In conclusion, I wish your paper much success and best wishes for all my friends. Yours truly,

E. H. D. Webb.

Obituary.

Mrs. Effie Rayburn, wife of Robt. Rayburn, and daughter of J. H. O'Daniel, was born May 15, 1874, departed this life May 17, 1909, aged 34 years and 2 days. She was converted when young, and lived a devoted Christian until her death.

She leaves a mother, a husband, and seven children to mourn the loss of an obedient daughter, a loving wife and tender mother. But they do not mourn as those that have no hope. She has gone to join her father, brothers and sisters and to be with the angels.

She was loved and honored by all who knew her. Her funeral was preached by Bros. Dean and Ball at Buchanan chapel, and she was laid to rest by the side of her father, sister and brother to await the resurrection morn.

A light is from our household gone, A voice we loved is still;

A place is vacant in our home, That never can be filled.
